Sir:

In response to the Restriction Requirement dated September 11, 2003,
the following is given.

Response to Restriction without Traverse

This Response is to the Official Communication dated September 11, 2003. Claims 1-32 were pending and were made subject of a restriction requirement. Under 35 U.S.C. 121, in the Office Action on page 2, the Examiner identified:

1. Claims 1-30 as drawn to a fluid dispenser employing bellows and a cannula, classified in class 401, subclass 153.
2. Claims 31 and 32 as drawn to a method of using a fluid dispenser, classified in class 401, subclass 143.

Application No. 10/064,811

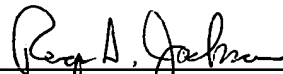

Applicant accepts the restriction requirement with respect to group 1 as representing the apparatus claims 1-30 and group 2 as representing method claims 31 and 32 being patentably distinct groupings.

Applicant elects to pursue group 1 including claims 1-30, with the Applicant withdrawing group 2 claims 31 and 32 from consideration, subject to filing a subsequent divisional application for group 2 claims 31 and 32.

Respectfully submitted,

Roger A. Jackson, Esq.
